The Russian Cossacks have an unusually close fraternal feeling in their ranks and they bury their dead with the greatest reverence. Above is depicted a scene when Russian scouts discover the grave of a dead comrade.

## FOR A PARK ON BISHOP STREET

The trustees of the Bishop Estate are holding a meeting this afternoon. One of the important things to be considered will be the improvement and beautifying of the lot of land belonging to the estate opposite the Alexander Young Hotel. This is a part of the property on which the old Arlington Hotel used to stand for the storing of building material and the operations of building in the construction of the Alexander Young Hotel. Since that structure was completed and Bishop street running along in front of it was improved, the plot of long has been vacant and has grown

up to weeds and grass with a few paths running through it where people crossed in making a short cut from King street or Hotel street. The Nature Man also held forth here during his stay in Honolulu.

There was a project on foot at one time to secure the plot for a Federal building. But congress has shown no haste to provide us a Federal building, and meanwhile the weeds have grown. There has been more or less talk of the need of improving it and making a park out of the place until it should be utilized for building purposes. This matter the trustees are now taking up.

## Change In The Alarm Boxes

An excellent change in the fire alarm boxes is being inaugurated by Fire Chief Thurston. He is having some of the system of alarm boxes equipped with key holes. The key boxes consist of a little metal box with a glass face that fits over the keyhole of the alarm box. The key which unlocks the alarm box is left in the keyhole when these boxes are over the keyhole. The purpose in having them so arranged, is that in case of an alarm having to be turned in, the boxes can be opened immediately by breaking the glass on the small case over the key.

The system was equipped with twenty keyless boxes that work with a lever, and 46 key boxes. At first the keys to these boxes were left with people residing near the boxes. This latter arrangement was found to be unsatisfactory. In some cases nobody but unintelligent Chinese or Japanese held the keys, and delay and confusion often resulted before the custodians could be made to understand that the fire keys were required. With the little boxes over the keys, the keys can be left in the key holes and the alarms can be turned in by anybody.

## JAPS TAKE KINCHOW

Associated Press Cable to the Star.

TOKIO, May 27.—Japanese have swept the Russians from Kinchow by an assault. They stormed the fortified heights of Nanshan and carried all before them, afterwards pursuing the enemy northward. Four Japanese gunboats in Kinchow bay aided in the assault by bombarding the Russian strongholds. A Russian gunboat in Talienwan bay in the meanwhile bombarded the Japanese flank.

LONDON, May 27.—A dispatch from Harbin places the Japanese losses at the battle of Kinchow at 12,000 killed.

## RUSSIAN FORCE AT PORT ARTHUR

Associated Press Cable to the Star.

NEWCHWANG, May 27.—The Japanese have a force of 50,000 men at Kinchow. The Russian force at Port Arthur is estimated at 20,000.

## ANOTHER APPEAL WON

Customs Broker H. J. Johnston this morning received a cable giving the news of another sake decision in favor of clients in behalf of whom he appealed to the Board of General Appraisers at New York. The cable is as follows:

"NEW YORK, May 27.—'Rags.' Honolulu. Empty sake tub case won.

In this case the appeal is against assessment of duty on sake tubs which arrive here empty, by reason of breakage en route. The Treasury Department rendered a decision about a year ago under which Collector Stackable was directed to impose duty on such tubs the same as if they were full, and Stackable under such order proceeded to reopen former entries and re-assess them for a year back. The amount involved is about \$5,000. The Treasury Department's ruling was based on the statutory provision that broken packages of wines, liquors and cordials must be assessed in full as if complete.

The appeal was on the ground that sake is not a wine, liquor or cordial, and the further ground that duty could not be collected on goods that did not arrive and consequently were not actually imported, such as the leaked contents of a sake tub. The appeal is believed to have been sustained on the latter grounds, as the Board of Appraisers held in the other case, in which a decision was reported yesterday, that sake was properly classed as a wine. The Board was reversed in so holding, by the decision cable yesterday, hence the empty tub case wins on both points.

## TO OPEN LAND ON KAUAI

For the first time in many years some valuable government lands on the Island of Kauai are to be opened for settlement. The survey department is now engaged in the work of making a preliminary survey which shall determine the extent and character of the lands to be thrown open for settlement.

The land being surveyed consists of valuable rice and taro lands and some kulas in the Hanalei district of Kauai. All of the land has been under lease, and most of it by Hawaiians. These leases have expired and as a number of applications have been made for homesteads, the land department has decided to throw open the land.

At Waioli there are about 500 acres of fine taro and rice land while at Puupei is a tract of 884 acres which is excellent grazing land. There are several other tracts of land which are to be thrown open for settlement. The size of the different homesteads will be regulated of course, by the number of applicants for land. The preliminary surveys will be completed within the course of a month and then the land commissioner will take up the details of throwing open the land.

## THE QUEEN'S HOSPITAL WINS

SUPREME COURT DECIDES THAT ITS SUBSIDY OF ABOUT \$1600 PER MONTH WAS LAWFULLY MADE AND MUST BE PAID—THE INSTITUTION HELD TO BE A PURELY CHARITABLE ONE.

The Supreme Court this morning decided the Queen's Hospital case in favor of the hospital and holding that the auditor must pay the subsidy as appropriated by the legislature. Nearly \$10,000 are now due in back subsidies which have been held up pending the decision, and other hospitals similarly situated will be able to claim their subsidy as appropriated. The decision holds that the Queen's Hospital is in fact conducted "without distinction as to nationality, creed or otherwise," and that it may therefore legally receive aid from the public treasury.

The decision, written by Associate Justice Perry, contains the following:

"The money appropriated, payment of which is sought by this appeal to be enforced, was collected by taxation and can be expended for public purposes only—it may not lawfully be used for purposes of private interest. What is a public purpose within the meaning of this rule, it is not always easy to determine. No general definition, to apply in all cases, need be laid down. It is sufficient to determine in each particular case whether, upon all the facts and circumstances, the purpose is a public one.

"In this jurisdiction and elsewhere, to provide and care for the indi-
